

Please be aware that your insurance may not cover,
or may have a set yearly allowance to be used for:

Well Baby Exams
Routine Physical Exams
ADHD Evaluations
Immunizations/Vaccinations/Shots
Flu Shots

This does not relieve you of your responsibility for payment for these charges.

We can provide state vaccines to patients with:

1. No insurance
2. Nevada Check-up
3. Medicaid
4. Indian Health Services

We can also provide state vaccines to certain insured patients:

1. Insured but no well child coverage
2. Insured with limited well child coverage
3. Insured, with only so much well child coverage per year - state vaccines can only be used after the benefit maximum has been reached

We cannot provide state vaccines to insured patients with well child benefits who must first meet their deductible.

We can only provide state vaccines when we have written documentation from your insurance company that includes your child's name and delineates your specific well child coverage limitations.
